

Eco-Initiatives Form: Above \$500

Name: [REDACTED]
Date: Jan 14 2015
Contact Email or Phone: [REDACTED]
Club or Group Affiliation: UBC Canadian Liver Foundation (CLF)
Amount Requested: \$650
TREASURER USE ONLY:
Approved Modified Denied
Submitted as of:
Notes:

1. Describe your project and its purpose (approximately 200 words)?

We will be hosting breakfast for students on campus called "Back2School Liver Breakfast" - name may change. We will be serving students breakfast food ranging from coffee to cupcakes to hashbrowns to pancakes and hot chocolate. Our purpose is to raise awareness about our club as well as serve healthy and delicious breakfasts at a cheap price.

2. Outline how your project pertains to the environment and sustainability at UBC (approximately 200 words)?

As we will be serving food and getting our club more well known throughout campus, we want to be as environmentally friendly as possible. We would be serving organic, local food - including catering from Sprouts Café for baked goods and hot drinks. As well, we will be giving discounts to students who bring their own container or cutlery. Finally, to promote environmental awareness on campus, we will be having a raffle (ticket given for every breakfast food purchased!) and the prize will be filled with eco-friendly goodies such as possibly solar-powered phone chargers, reusable containers and organic snacks for their study breaks.

3. How will you document the successes and difficulties of your project? In what ways do you foresee this documentation aiding other SEC Eco-Initiatives (approximately 200 words)?

We will keep track of the number of students who purchased any item and what food the students purchased the most often. This would help us with future events so we can cater to the student body as well as for other clubs who may be hosting a similar event in the future.

4. For most requests of funding of this amount, the SEC would like to see other funding sources contributing to the financing of your project. Are you pursuing any other sources of funding? If so, what sources, and for what amount? (SEC Treasurers can help you identify other sources of funding.)

We are looking to getting sponsored by IGA. The SEC funds will be our main source of funding.

5. What aspects of your project (purchases, bookings) will SEC funding be used for?

Food and advertisement. We will be printing on recycled paper using vegetable-based ink as well as for catering and purchasing the food.

A note about Eco-Initiatives Grants

If your project is approved, the SEC will reimburse you for the purchases made. You must provide the SEC with proof-of-purchase. If you have any questions regarding the Eco-Initiatives Funding, please contact SEC Treasurers*. Arrangements can be made to provide students with funding before purchasing if they cannot afford to make the purchase for their project and then receive compensation. Reimbursement usually takes about 5 business days. Eco-Initiatives Grants can fund a wide variety of projects; any projects related to the environment or sustainability, and involving members of the UBC student body, will be considered. However, requests for funding for projects undertaken as part of coursework at UBC, or individual volunteer projects, must illustrate a connection to the wider student body at UBC.

Completed forms should be emailed to enviro@ams.ubc.ca. Alternatively, we welcome you to drop your form off at our office, Room 245B of UBC's Student Union Building. The Treasurers and other active members of the SEC would love to help you formulate your project, and will be glad to assist with the project's development and applications for funding.
